

Thank You

June 6, 2014

I would like to thank the Osage Mineral Trust Beneficiaries for considering me and for voting for me in the June 2, 2014 Minerals Council election. Although I didn't make the cut, you have wisely elected a Council that is heavily weighted toward oil field experience and business experience. That is exactly what I was hoping you would do. There will be differences of opinion among them, but that can be a good thing at times. What we need now is to get all the new ideas out there and start chewing on them a little. I expect to see great things coming from this Council over the next 4 years.

As for me, I plan to keep right on doing what I've been doing as long as I see a need. I really want to be there to see the good things start happening. If you believe nothing else I have said over the last 3 years, believe this: Osages, you really do need to know. Please take an interest in your inheritance. Learn where it comes from and what it takes to make things work. Less than 25% of the eligible beneficiaries voted in this last election. That's the sad part. We must teach our children how things work and find a way to get them interested in someday participating in the management of this precious asset they will own a part of.

Again, thank you very much for your support and your vote.

Ray McClain---a very proud and grateful Osage Mineral Trust Beneficiary
